

## Section. 5      510(k) Summary

Company Name:      Cardiovascular Systems, Inc.  
651 Campus Drive  
St. Paul, MN 55112

OCT 25 2007

Contact:              Robert Thatcher  
Executive Vice President

Phone:                (651) 259-1630

Fax:                    (651) 259-1696

Summary Date:      Sept 28, 2007

Trade Name:          Diamondback 360°™ Orbital Atherectomy System

Common Name:      Peripheral Atherectomy Device

Classification Name: Peripheral Atherectomy Catheter (21 CFR 870.4875; Product Code: MCW)

Predicate Device:

510(k) Number: K071350  
Manufacture: Cardiovascular Systems, Inc.  
Trade Name: Diamondback 360°™ Orbital Atherectomy System

510(k) Number: K071427  
Manufacture: Cardiovascular Systems, Inc.  
Trade Name: Diamondback 360°™ Orbital Atherectomy System

### 5.1 Description of Device

The Diamondback 360°™ Orbital Atherectomy System (OAS) is intended for use in the treatment of peripheral artery and A-V graft stenosis.

OAS provides a method of removing stenotic material from peripheral arteries and A-V Graft. OAS applies a diamond coated, eccentrically rotating cutting surface to ablate stenotic material. The resulting particles of removed stenotic material are very small and can be absorbed by the body.

The Diamondback 360° Orbital Atherectomy System consists of the following three significant components:

- 1) Orbital Atherectomy Device,

- 2) Orbital Atherectomy Controller, and
- 3) Guidewire.

This 510(k) is for the same device with modifications to the orbital atherectomy controller for ergonomics and ease of use.

## **5.2 Intended Use**

The Diamondback 360°™ Orbital Atherectomy System is a percutaneous Orbital Atherectomy System indicated for use as therapy in patients with occlusive atherosclerotic disease in peripheral arteries and who are acceptable candidates for percutaneous transluminal atherectomy.

The Diamondback 360°™ Orbital Atherectomy System is also indicated for removal of stenotic material from artificial arteriovenous dialysis fistulae (A-V grafts).

## **5.3 Technology**

The Diamondback 360°™ Orbital Atherectomy System provides a method of removing occlusive atherosclerotic or stenotic material. The OAS applies a diamond coated, eccentrically rotating cutting surface to ablate stenotic tissue. The resulting particles of removed stenotic tissue are very small and can be absorbed by the body. This same technology was cleared to market for use in peripheral arteries in 510(k) K071350 and for use in A-V Grafts in 510(k) K071427.

## **5.4 Conclusions**

The Diamondback 360°™ Orbital Atherectomy System is substantially equivalent to the predicate devices. Laboratory test data were provided to support the safety of the modification to the Diamondback 360°™ Orbital Atherectomy System. No new questions of safety or effectiveness are raised.

Cardiovascular Systems, Inc.  
c/o Mr. John Carline  
Regulatory Consultant  
651 Campus Drive  
St. Paul, MN 55112

Re: K072800  
Diamondback 360° Orbital Atherectomy System  
Regulation Number: 21 CFR 870.4875  
Regulation Name: Intraluminal Artery Stripper  
Regulatory Class: Class II (Two)  
Product Code: MCW  
Dated: September 28, 2007  
Received: October 1, 2007

Dear Mr. Carline:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Center for Devices and Radiological Health's (CDRH's) Office of Compliance at (240) 276-0120. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding postmarket surveillance, please contact CDRH's Office of Surveillance and Biometric's (OSB's) Division of Postmarket Surveillance at 240-276-3474. For questions regarding the reporting of device adverse events (Medical Device Reporting (MDR)), please contact the Division of Surveillance Systems at 240-276-3464. You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely yours,
